

Amendments to the Specification

Please delete the paragraph that begins at page 1, line 1, which consists of “Description”.

Please insert the following new paragraph prior to the paragraph that begins at page 1, line 6:

Field of the Invention

Please make the following changes to the paragraph that begins at page 1, line 5:

The present invention relates to a voltage regulator ~~in accordance with the features of the preamble of claim 1~~ having an output terminal ~~for the provision of an output voltage and connection of a load, and output capacitor connected to the output terminal and having an equivalent series resistance,~~ and also having a clocked converter unit, to which a supply voltage is fed, which has an output coupled to the output terminal and to which are fed a feedback signal dependent on the output voltage and a reference signal for the formation of a differential signal.

Please insert the following new paragraphs prior to the paragraph that begins at page 1, line 18:

Background

Examples of prior art voltage regulators are ~~Such a voltage regulator is described~~ for example in US 6,229,292 B1 or US 6,069,471.

Please insert the following new paragraphs prior to the paragraph that begins at page 4, line 13:

Summary

This aim is achieved by ~~means of~~ a voltage regulator in accordance with the ~~features of claim 1. The subclaims relate to advantageous refinements of the~~ invention.

Please insert the following new paragraph prior to the paragraph that begins at page 6, line 13:

Brief Description of the Drawings

Please insert the following new paragraph prior to the paragraph that begins at page 7, line 12:

Detailed Description
